

Patients have the right to:

1. Be treated for the life-threatening, chronic disease of addiction with honesty, respect and dignity.
2. Know what to expect from treatment, and the likelihood of success.
3. Be treated by licensed and certified professionals.
4. Evidence-based treatment.
5. Be treated for co-occurring behavioral health conditions simultaneously.
6. An individualized, outcomes-driven treatment plan.
7. Remain in treatment as long as necessary.
8. Treatment for their families and loved ones.
9. A treatment setting that is safe and ethical.
